WHAT'S HAPPENING?
The Town of Montague, in partnership with Mass Housing Partnership (MHP) and Innes Associates Ltd., is exploring zoning amendments necessary for potential redevelopment of the former Farren Care Center site. The Town is also considering zoning changes for the surrounding neighborhoods along Rod Shop Road, Masonic Avenue, and Depot Street to promote the adaptive reuse of historic buildings that serve as gateway transitions from the existing residential areas to the potential redevelopment site. **At this meeting, residents will have the opportunity to review the full draft zoning language for the Farren sites and provide feedback to help shape the zoning amendments.**
