Walter Ramsey, Town Planner

Brian Huntley, Engineer, Tighe & Bond, Corrective Action Design Permit Application for Sandy Lane Burn Dump

Ramsey: Phase 1 of the solar project off Sandy Lane is mechanically complete. The western array and landfill solar array. As part of the project, the Town had to get a post closure use permit to use the landfill for solar. In that permit from DEP, part of the permit was an obligation for the Town to make forward progress in regards to the burn dump which is not currently capped. The Town has contracted with Tighe & Bond to do the cap and we have a corrective action design application that has to go to the State and is due by June 1st. Tighe & Bond is producing the application as well as bid ready plans and specs for the cap. The plan right now in accordance with the 2015 RFP Kearsarge responded to, is they have been awarded the rights to develop the burn dump area for solar and are proposing a 2.7 mega watt solar array on the burn dump. They are going to conduct the capping and all the necessary site improvements

that are required for solar and the expense for capping they will bare is going to be prorated from the cost at a fee that comes off of the per kilowatt hour basis they were approved for in 2015.

Huntley: Been working on this project on and off for a number of years now. There was an ISA, CSA & CAAA which are all the assessment processes that went around determining the limit of the landfill, the waste in the landfill some of the potential impacts to ground water, air and landfill gas. Essentially that all brought us into the concept we're looking at now which is a soil cap. The concept is to take the landfill that's there now, regrade it so the steepest slope is no larger than 3:1 which is a requirement of DEP and the top will be 5% cross slope which is a minimum requirement of DEP. Putting a soil cap on top with essentially low permeability but not as low permeability as clay or membrane as on solid waste landfill. We've also put in storm water measures to collect storm water capture on top of the cap and also looking to abandon underdrain that is draining leachate from the bottom of the landfill into the adjacent stream and wetland. Walter and I have been to DEP several times trying to come up with the least costly project for the Town; trying to come up with some creative ways to stage the project and what they have pointed us to is this design where they want to approve it all as one to see that the Town is at the table to commit to closing the landfill. They agreed in the course of issuing their Corrective Action Design Permit they are comfortable allowing a phasing approach and pushing the time frame out giving the Town the opportunity to appropriate money and do what they need to do to get the landfill closed. Estimating this is a \$2.5 million project.

Ramsey: Solar will be responsible for mowing anything in the fenced array area, we might be able to maintain for them to mow outside the fence; I think the town will have to maintain the storm water area.

- There will be 30 year post monitoring that will be done by DEP.
- Closing of the landfill reduces your liability.

Nelson makes the motion to authorize the chairman to execute the Corrective Action Design application to be submitted to DEP. Seconded by Kuklewicz, approved unanimously. Nelson – Aye, Kuklewicz - Aye

Personnel Board

Review Cultural Coordinator Job Description

Ramsey; Part of the planning board budget I've requested the Cultural Coordinator position be created. They will report to Town Planner, 20 hours week, this needs to pass at Town Meeting, the position needs to raise funds for programming, would like to build out a 501c in the next year or two. This is the only option if we want this position in town

Kuklewicz feels RiverCulture has done great things for the town, but you should be prepared to answer difficult questions at Town Meeting, feels there is value in the position

Board will have to enter into an MOA with union to allow for establishment of the position

Nelson makes the motion to approve the Cultural Coordinator Job description as written. Seconded by Kuklewicz, approved unanimously. Nelson - Aye, Kuklewicz – Aye

Nelson makes the motion to endorse and add to the May 5, 2018, Annual Town Meeting Warrant:

ARTICLE 36: To see if the Town will vote to adopt a Resolution relative to energy policy: A resolution calling on the Massachusetts Legislature to Establish Greenhouse Gas Emissions Pricing to Curb Climate Change

**A Resolution Calling on the Massachusetts Legislature to
Establish Greenhouse Gas Emissions Pricing to Curb Climate Change**

WHEREAS, the scientific consensus firmly holds that catastrophic climate change is taking place and the burning of fossil fuels, with its resultant greenhouse gas (GHG) emissions, is among the chief contributing factors; and

WHEREAS, the climate crisis is a serious threat to current and future generations here in the Town of Montague, and all over the world; and

WHEREAS, free markets operate most efficiently when individuals and corporations are responsible for the costs of their actions, and these markets offer a fertile environment for creation of economical services and products in the areas of conservation, efficiency, and renewable energy, to allow us to wean ourselves off fossil fuels; and

WHEREAS, price changes shift behavior by establishing GHG pricing that can spur innovation of more climate-friendly ways to provide and consume goods and services; and

WHEREAS, prices for fossil fuels do not reflect the cost of health impacts, climate change, and other environmental degradations that are associated with pervasive fossil fuel use and GHG emissions; and

WHEREAS, state and federal policies have differentially subsidized renewable and non-renewable energy; and

WHEREAS, Massachusetts is one of nine New England and mid-Atlantic states which in 2014 implemented a market-based policy, the Regional Greenhouse Gas Initiative, to reduce greenhouse gas emissions in the electric sector, which has successfully contributed to substantial decreases in greenhouse gas emissions in the electric sector; and

WHEREAS, in June 2017, the Massachusetts legislature's Joint Committee on Telecommunications, Utilities and Energy held a hearing on GHG emissions pricing proposals at which the testimony was strongly in favor of adding a form of GHG emissions pricing for all other (non-electric) energy sectors; and

WHEREAS, British Columbia implemented GHG pricing in 2008 and, according to a 2014 report in the *Economist*, British Columbia's economy is as strong as, and arguably better than, the rest of Canada while the GHG pricing is successfully driving environmental gains¹; and

NOW THEREFORE BE IT RESOLVED that the Town of Montague, Massachusetts strongly urges the Massachusetts Legislature to pass legislation that puts a gradually increasing fee on GHG emissions from fossil fuels to:

- Increase market incentives for non-electric energy sectors to lower greenhouse gas emissions;
- Make individuals and corporations accountable for the costs of their actions when they choose to use fossil fuels;
- Level the economic playing field between fossil fuels and conservation, efficiency, and renewable energy sources; and

BE IT FURTHER RESOLVED that we strongly support a provision in the GHG pricing legislation that ensures that the most economically vulnerable residents of Massachusetts are not caused any undue financial hardship because of the law.

BE IT FURTHER RESOLVED that the Administrative Assistant to the Town of Montague shall cause a copy of this resolution to be sent to MA Governor Charles Baker; State Treasurer Deborah B. Goldberg; MA Senate President Stanley C. Rosenberg; MA Speaker of the House Robert A. DeLeo; MA State Representative Stephen Kulik; MA Senate Chair of the Joint Committee on Telecommunications, Utilities and Energy (TUE), Senator Michael J. Barrett; House Chair of the TUE Committee, Representative Thomas A. Golden, Jr.; Senate Vice Chair of the TUE Committee, Michael Brady; House Vice Chair of TUE Committee, Frank A. Moran; all members of the Joint Committee on Telecommunications, Utilities and Energy: Senators Marc R. Pacheco, Anne M. Gobi, Joan B. Lovely, Bruce E. Tarr; and Representatives James M. Cantwell, Carolyn C. Dykema, Nick Collins, Josh S. Cutler, Adrian Madaro, Daniel Cahill, Joan Meschino, Leonard Mirra, and Randy Hunt; U.S. Senator Elizabeth Warren; and U.S. Senator Ed Markey, or pass any vote or votes in relation thereto.

Discussion of Labor Counsel Options in FY2019

Ellis: Cost of representation has been concern of Finance Committee and town meeting. Labor Counsel now charges \$190/hour and after 69.5 hours we will be charged \$235. There will be 3 contracts to be negotiated next year. I'd like the Board to ask me to invite KP Law to make a pitch and there may be the argument to bring it all in under one roof at a rate beneficial to the Town. We do not have long range contracts with Counsel, they are at will arrangements. I've already shifted some of the work to them to keep the budget in line.

The Board agrees it would be a good idea to have KP Law come in.

Southworth Bankruptcy Proceedings

A lien was placed on the property and real estate tax, Turners Falls fire district, sewer fees and water

Last Thursday, the bankruptcy court moved to dismiss the case from bankruptcy because bank that was underwriting continued operation of the business during bankruptcy, pulled the plug. I understand By Line Bank of Chicago is one of the major holders of debt from the firm's ongoing operations. What this really means is Southworth and By Line will be looking to move whatever assets from the building that they can and I believe By Line has a right of first refusal. We have an executive session scheduled as we need to discuss how we manage ourselves and consider whatever litigation might be required. As of today the Town is owed \$322,309.

Eileen Seymour: We placed a lien on the property when it was in bankruptcy which was our legal right, and now that the bankruptcy has been lifted we will talk to Counsel in executive session and have conversations about our next steps.
