SPECIAL ARTICLE REQUEST – CAPITAL EXPENSE

This form is intended for use with capital article submissions $\geq \$25,000$ with a lifespan of 5+ years. For major building projects, please consult the Town Administrator.

Please complete this form in its entirety! Initial Submission due 10/30/2025.

Budget Year FY 27

Department: Airport Submitted by: Bryan Camden
Item/Project Cost: \$ 142,500 (Local Share) Date Prepared: 2/3/2026
Item/Project Title: Install Multi-Use Pathway along Industrial Blvd & Renovate Pioneer Aviation Restrooms

Proposed Article Wording:

To see if the Town will vote to raise and appropriate, transfer from available funds, borrow, or otherwise provide the sum of \$, or any other amount, for the purpose of << >>, including any and all incidental and related costs, or pass any vote or votes in relation thereto.

Detailed Description for Background Materials: (Provide a full description of the item or service. Use attachments as needed.)

This project, if funds are awarded, would be to construct 4,800' of multi use pathway along Industrial Blvd, starting at the intersection of Millers Falls Road and Industrial Blvd, and terminating at the Frank County Technical School main entrance. In addition, this project will also fund the upgrades to the Pioneer Aviation restrooms and passenger waiting area to meet ADA regulation, with a special focus on family oriented gathering space in the passenger terminal. In December 2025 the airport applied for funding totaling \$2,850,000 from the FAA's Airport Terminal Program, a funding pool of no less than 1 billion dollars annually (2021-2026) that can be used specifically for terminal repairs, replacement, and surrounding services including ground transportation and last mile infrastructure installation. The intended plan is to install a pedestrian / bicycle pathway to transition them from using the roadway to a much safer pathway. Inside of the Pioneer Aviation hangar the indented work would include removing 3 undersized restrooms and installing a single large ADA compliant unisex restroom and shower room. In addition, work would also include renovating an existing space to accommodate additional passenger / crew waiting space as well as a meeting room / family waiting area. Work would be expected to begin over the summer of 2026 with all planning and engineering.

Scoping Questions

Please elaborate in the comments box at bottom of the page

	Yes	No
Do you have a written estimate or proposal for the scope of work? <i>If yes, attach the estimate</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Is there a lease option for this expense?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Will this item or project replace a capital asset?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Will this create ongoing costs or savings?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Will this leverage grant or other external funding?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Is this request identified on the Capital Improvement Plan?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Describe how the project/ purchase will be managed

Who will manage procurement and execution of the project? Will external resources be required for design, engineering, procurement, or construction oversight?

Management will be under the FAA at a funding source level. At the local level the airport resident engineer firm Gale Associates will oversee all work, engineering, and funding management.

Why is it essential that the Town makes this investment now?

Make your argument for why this project is necessary and timely. Articulate the benefits of the project. If necessary, describe the consequences of inaction.

Funding for this potential project is being offered by the FAA at 95% federal share and 5% local contribution of \$142,500. The project local share could be taken from the Cannabis Impact Funds (882-150-3200-882005) which currently sits as \$180,106.45. This project will improve pedestrian safety and enhance our already robust industrial park. In addition, it will finally connect the Franklin County Technical School and the Airport passenger terminal to the FRTA bus stop on Millers Falls Road.

Relative Priority: Your assessment of the how important this is to the Town at the present time.
