

Montague Center Complete Streets Project

Community Input Session

6:00-7:30 PM, Thursday, September 5, 2024 via Zoom

The Town of Montague is exploring possible roadway improvements in Montague Center to slow down vehicular traffic speeds; and to provide safe pedestrian crossings and bicycle connections. Please join us to review existing conditions to Main/North/Center Streets, explore possible design concepts, and to provide community feedback to help guide this project. All are welcome!
