

Montague City Village Center Redevelopment Project Public Presentation

6:00 - 7:30pm Tuesday, March 10, 2026

Shea Theater Arts Center, 71 Avenue A, Turners Falls

WHAT'S HAPPENING?

Before issuing a Request for Proposal (RFP) for re-developing the former Farren Hospital site, the Town is participating in the **Urban Land Institute Boston/New England Technical Assistance Program (TAP)**, to receive expert guidance on a redevelopment strategy that balances economics & community goals. A panel of senior-level land use and real estate professionals will provide unbiased insights during a one-day session on key questions:

- Should the site be subdivided before disposition? What are the pros and cons?
- If subdivided, should the Town issue one RFP for a master developer or multiple RFPs?
- What are the benefits and risks of selecting a master developer for a site of this size in Franklin County?

Concluding the session, the public is invited to the public presentation of the panel's findings and recommendations, followed by a Q&A. Light refreshments will be served. This event will be recorded by MCTV.

For questions/comments, contact Maureen Pollock, Planning Director, at mpollock@montague-ma.gov or (413) 863-3200 x112.
