FALL FORUMS

Please Join us in October :

3 Thursdays
Topics
Locations.

All are Welcome, NO Registration Needed.

Co-Sponsored by the Gill Montague Council on Aging
and the Montague Public Libraries

Artificial Intelligence

AI: Basics and Beyond

October 9, 2025 5-7 PM

Montague Center Library

It undeniably touches every part of our lives, so let's embrace it with caution. Learn how to detect and use AI in your devices, web and social media, transportation, smart homes and more. Understand the psychological and gender implications as well as challenges in education arenas. Hear how AI is shaping health and well-being for Seniors including emerging innovations.

Cyber Security

Protect Yourself from Online Predators

October 16, 2025 5-7 PM

Millers Falls Library

Learn how to: recognize and avoid frauds and scams, particularly those directed at Seniors; protect your personal information; manage passwords; set up and adjust privacy and security on devices, apps, social media, and email; set-up 2-factor authentication (2FA) for extra protection; and ensure safe practices for online shopping and banking.

The Google Suite

Free and Easy Tools for You

October 23, 2025 5-7 PM

Gill Montague Senior Center

Learn the essentials in Google's free tools in this easy, hands-on class. Bring your laptop to practice live, or just listen. Topics include: Gmail for sending, organizing, and formatting emails; Calendars for reminders and appointments; Drive for storing files and Docs for writing letters. Perfect for those new to the Google Suite.

In partnership with The Gill Montague Council on Aging, Franklin County Technical School Programming & Web Program, and Franklin Regional Council of Governments. This project is funded by the Mass Broadband Institute at the Mass Tech Collaborative under the Municipal Digital Equity Implementation Program. Funding was provided by Massachusetts ARPA State Fiscal Recovery Funds.
